- Review our current plan:
Is it being implemented as planned? Does the midyear data tell us it is effective?
Has the carryover from last year been spent?
Are we on track to have the funds spent as planned, or will there be carryover or shortages?
Do we need to make any amendments to our current plan?
Does any funding need to be moved to prevent shortages or excessive carryover?
Is there an academic need that was not previously known to us?
Is there anything we need to purchase? If so, let's do it by the end of April to be sure it's used this year.
- 2019-20 Plan – Initial Discussion
- Cell Tower income – how much do we receive, from whom, and what do we do with it?
- Utah Leading through Effective, Actionable, and Dynamic (ULEAD) – Melinda
The ULEAD Education initiative and clearinghouse were created through HB 408 during the 2018 General Session of the Utah Legislature (<https://www.schools.utah.gov/ulead>). Hanover Research solicited educators, legislators, SCC Chairs and others to provide input to help establish initial ULEAD Education research priorities and to develop collaborative partnerships focused on innovative, effective, and/or efficient practices that better meet the learning needs of students. The online needs assessment took about 10 minutes to complete and will help inform the ULEAD Steering Committee relative to statewide research priorities.
